Figure 1. A schematic diagram of the experimental setup. The subject is seated in a chair, viewing a video screen. The screen displays a target (a small circle) and a starting point (a larger circle). The subject's hand is positioned at the starting point. The distance between the starting point and the target is labeled as d . The subject is instructed to move their hand from the starting point to the target. The video screen is connected to a computer system that records the hand's position and movement time.

CLAVA ETFLAS AND PRESENTATION

(482-22)

The image is a dark, underexposed scan of a document. It appears to be a letter or a report. At the top, there are some faint, illegible markings that might be a header or a date. The main body of the document is mostly black, with some very faint, blurry shapes that could be text. At the bottom, there is a faint outline of what might be a signature or a name. The overall quality is very poor, making it impossible to read the actual content.
